TROOPS AT CAVITE

Greene's Expedition Has Reached Dewey.

SEIZED WAKE ISLAND.

American Flag Waves Over Another Spanish Possession.

MAY BOMBARD MANILA AT ONCE.

News of an Attack on the City Expected at Any Time—Blockade Effective. The Insurgent Cabinet—Rebels May Give Us Trouble.

HONGKONG, July 22.—The German steamer Wuotan, at this port from Cavite, reports that the United States transport China, with American re-enforcements for Admiral Dewey, arrived at Cavite on Saturday last and that the other transports arrived on Sunday.

The Wuotan also brought the news that no advance had been made by the American forces.

They were awaiting the coming of General Merritt, who was expected to reach the place within ten days. The insurgents still invested the town.

The news of the destruction of Admiral Cervera's fleet at Santiago de Cuba was received at Manila on July 17 and created consternation among the Spaniards.

The second expedition for the support of Admiral Dewey at Manila sailed from San Francisco June 14. It was under the command of Brigadier General F. V. Greene of New York and was composed as follows.

Steamer China—First Colorado regiment, two companies of the Eighteenth United States infantry, part of Battery A, Utah artillery, and a detachment of the engineer corps under Major Bell.

Steamer Colon—A battalion comprising Companies G, D, E and B, Twenty-third United States infantry, two companies Eighteenth United States infantry and part of Battery A, Utah artillery.

Steamer Senator—First Nebraska volunteers.

Steamer Zealandia—Tenth Pennsylvania volunteers and Battery B, Utah artillery.

TO BOMBARD MANILA.

Dewey Expected to Attack the City This Week.

MANILA, July 18, via Hongkong, July 22.—Unless the Spaniards surrender in the meantime Rear Admiral Dewey will bombard the fortifications of Manila by the end of this week, provided the troops are ready to take possession immediately.

The First regiment is already in the field at Paranaque, two miles from Manila.

The Spaniards are reported to have been buoyed up by the hope that the Cadiz fleet, due here on the 16th, would arrive soon, but the news of the destruction of Admiral Cervera's squadron, brought yesterday by the Japanese cruiser Naniwa, may lead them to surrender. The insurgents are constantly harassing the Spaniards on both sides of the city, but they are checked by the big guns of the Malate and Santa Misa forts.

The second detachment of the American expeditionary force arrived in excellent condition, though four died on the voyage.

Letters received here from Cavite, dated July 18, say that the American transports have hoisted the American flag on an island supposed to be Watts Island.

General Aguinaldo has organized the Philippine cabinet at Bacoor, with the following personnel: President of the council, General Aguinaldo, secretary of war, Baldimir Aguinaldo, nephew of General Aguinaldo; secretary of the interior, Landro Ibaira; secretary of state, Mariano Trias

A Cavite letter, dated July 17, says that General Anderson has quartered the California battalion at Paranaque, several miles from Manila. The blockade is effective, and mails are not allowed to enter Manila except by warships.

Wake, Not Watts, Island.

LONDON, July 22.—A dispatch to The Times from Cavite refers to the island over which the American transports are said to have hoisted the American flag as Wake island, which is in the Marshall group, in Miolonesia, comprising the Radack and Ralick chains. Probably "Watts" is a cable error.

Dewey Reports.

WASHINGTON, July 22.—The navy department yesterday afternoon posted the following:

"CAVITE, July 17, via Hongkong, July 21.—Situation unchanged. Second army detachment arrived today. All well on board. The health of the squadron continues good. No sickness whatever. DEWEY."

CONDITIONS AT CAVITE.

Rebel Victories—Insurgents May Cause Us Trouble.

LONDON, July 22.—The correspondent of The Times at Cavite, telegraphing under date of July 17 by way of Hongkong, says:

"I visited the rebel intrenchments, which are less than a mile outside of the Spanish lines at Malate. I found the rebels well armed. They are provided with Mauser rifles and have two field pieces, and they are gradually forcing the Spaniards back.

"The Spanish prisoners are well treated by the rebels, but they are all terribly exhausted and emaciated. Some of them are suffering severely from fever. The position of the Spanish prisoners taken by the Americans is peculiar. Admiral Dewey, being unable to keep them, turned them over to the rebels under a proviso that America should bear the expense of their maintenance, General Aguinaldo being responsible for their feeding. The prisoners at Cavite complain that they receive insufficient food, but the rebels are unable to obtain better.

"I have visited all the prisons and hospitals. I found their condition extremely filthy. The surgical and medical treatment was primitive. Since the arrival of General Anderson's brigade, however, the prisoners have been employed in cleansing and other sanitary work, and there has been a marked improvement all around.

"On July 15 there was heavy fighting around Fort Malate. General Anderson moved 300 of the First California volunteers, under Lieutenant Colonel Dubose, forward to Paranaque, several miles from Manila, behind the rebel lines. On the following day there was renewed heavy fighting around the city. The rebels attempted on that and the day after to outflank the Malate defenses and capture the fort.

"The developments of the political position confirm the belief that the natives are suffering from 'swelled heads' and are likely to cause trouble to the Americans, whose preparations keep this contingency steadily in view. It is reported that in an attack upon Malate today the rebels lost 50 killed during a charge. A party was surrounded by Spaniards and slaughtered to the last man.

"Lieutenant Lazelle of the Eighteenth regulars died of measles after leaving Honolulu."

Transport Arizona at San Francisco.

SAN FRANCISCO, July 22.—The steamship Arizona, the government's latest acquisition as a transport, arrived from Tacoma yesterday. She carries 250 first-class passengers, 1,250 second class passengers and 3,000 tons of freight. A detachment of guards from the Fifty-first Iowa volunteers has been sent on board the Arizona. She will be fitted out at once, as will also the transport Scandia.

On the Rio, which will sail Saturday, 50 officers, 846 enlisted men and ten civilians, a total of 906, will take passage. Of these 731 comprise two battalions of the South Dakota regiment, 53 are men of the signal corps and 104 recruits for the Utah light artillery. Brigadier General H. G. Otis will be in command.

Preparations are being made to rush the available troops, and nearly 4,000 soldiers will be dispatched within the next two weeks.

AT CHICKAMAUGA.

Two-thirds of the Men In Camp Will Probably Go to Porto Rico.

CHICKAMAUGA NATIONAL PARK, Ga., July 22.—Last night it looked as if at least two-thirds of the troops at Camp Thomas would be ordered to Porto Rico under General Brooke

The movement will begin today, when the Second brigade of the First division, First corps, commanded by Brigadier General Hains, will leave for Newport News.

This brigade received marching orders a few minutes before 6 o'clock last evening. The regiments of the brigade are the Fourth Ohio, Third Illinois and Fourth Pennsylvania. The order to move was greeted with the wildest enthusiasm. The regiments of the brigade joined in yells of frantic delight, and the regimental bands discoursed national airs.

This brigade is the only organization that will leave the park today, but the entire First corps will probably follow, the different brigades going out as rapidly as transportation can be arranged. But for lack of transportation the reserve hospital corps, the reserve ambulance corps, four batteries of light artillery and the signal corps would have been ordered out today. The batteries are A of Illinois, B of Pennsylvania, A of Missouri and the Twenty-seventh Indiana They will, however, follow not later than Saturday, and by that time the arrangements will have been completed for a steady movement day by day until the entire force is gone.

While General Brooke in person had nothing to give out for publication, one of the most prominent and best posted officers of the First corps admitted that it was the purpose to move the entire corps, which numbers about 36,000 officers and men. The regiments of the First corps are Fifth Illinois, Third Wisconsin, First Kentucky, Third Illinois, Fourth Pennsylvania, Fourth Ohio, Sixteenth Pennsylvania, Second Wisconsin, Third Kentucky, Thirty-first Michigan, Sixteenth Indiana, First Georgia, Sixth Ohio, One Hundred and Fifty-eighth Indiana, First West Virginia, Second Ohio, First Pennsylvania, Fourteenth Minnesota, Twelfth Minnesota, First South Carolina, Fifth Pennsylvania, Eighth Massachusetts, Twenty-first Kansas, Twelfth New York, Ninth Pennsylvania, Second Missouri and First New Hampshire.

At headquarters yesterday afternoon there was general activity among the officers who are to go with General Brooke. Most of them completed the work of packing their baggage and getting everything ready for an early departure.

Suicide of an Artilleryman.

NEW YORK, July 22.—Sergeant Neal Molloy of Battery I, Seventh United States artillery, killed himself at Fort Slocum yesterday No reason is known for his act. After roll call yesterday he went to his quarters and packed up his belongings. He then went to the quarters of the noncommissioned officers and bade them goodby, saying he had received a furlough and would not see them for some time. No one doubted, as it was known he had been seeking a furlough and some believed he was going to Washington to [illegible] from his battery to [illegible] After leaving the [illegible] officers he strolled down to [illegible] killed himself by a bullet [illegible] revolver.

Spanish Liner's Contract [illegible]

WASHINGTON, July 22.—[illegible] tract with the Spanish Transatlantic line for the transportation of [illegible] ish prisoners drawn by Attorney-General Griggs was formally executed [illegible] day. The company, through its [illegible] gave bond in the sum of $250,000 for faithful performance of the contract.

Crazy Servant Fires a House.

HARTFORD, July 22.—An apparently crazy servant girl, out of revenge on account of being discharged, set fire to the house of her former mistress yesterday. The building, which was slightly damaged, was occupied as a boarding house by Mrs. M. B. Cady. The servant after setting the fire struck Mrs. Cady's daughter a violent blow in the face. She is under arrest.

CONDENSED DISPATCHES.

There were four prostrations in Boston from heat yesterday. One victim will die.

Twenty-six artillerymen have left Fort Slocum, New Rochelle, N. Y., for Boston harbor to re-enforce the garrison there.

Edwin Storey Smith, the most prominent paper manufacturer in New England, is dead. He had been ill for about five years from paralysis.

John McGowan, aged 32 years, a member of the shoe firm of McGowan & Collins of Oswego, N. Y., dropped dead in the street last night from heart failure.

Daniel Jack of Boston and Daniel Neddy of Whitefield, N. H., are dead as the result of drinking hair renewer. The men thought the preparation was liquor and took it by mistake.

Fatal Storm at Nashua, N. H.

NASHUA, N. H., July 22.—The severest rain, wind and thunder storm known here for many years occurred yesterday afternoon. In 90 minutes 3.22 inches of rain fell, besides considerable hail. The lightning struck in many places, setting many fires. Frank W. Hall, 30 years old, married, while in a field was struck by a bolt and instantly killed. The electric cars were stalled and telephone and telegraph communication was interrupted until the rain abated. Several of the industries closed owing to the water flooding the engine rooms, putting out the fires.

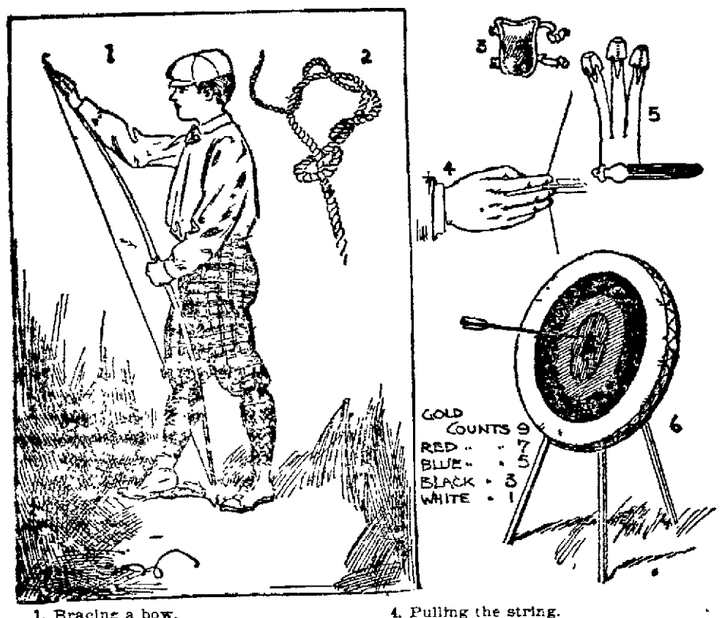
TO MAKE AND USE A BOW.

Directions for Procuring an Archery Outfit Which Any Can Easily Follow—Rules to be Remembered.

—Copyright, 1898.

On the fol-day are built on the same
man was an I was a youngster—and
other men lieve they have changed
the bous re is hardly anything that
stove wi ittied out of wood or ham-
although t of iron with which more
ly becau be had than a good bow and
looking arrows. Only, if one is really
of her fun—which, you know, is the
was s od word for sport—the bow
two f e a "real" one, strong and
she d y, with life enough in it to throw
dow dred yards or more at an easy
; and the arrows must be the
thing, too, made to fly straight
of hard and "stick in." Of course
ase weapons are not mere toys, and
st no more to be "monkeyed with"
tan a loaded gun. To point an ar-
ow at another boy is simply criminal.

You must have the right idea how to handle your tools; and, though they can easily be bought, most of you will want to know how to construct them. I hope to be able to make both these matters quite plain and fairly easy—for I have myself been through it all. You can't possibly do any successful shooting with little flat bows held crosswise, such as I tried to use at first, nor with short, unfeathered arrows held on the string between the thumb and finger. You must follow the general method of the old English archers, who easily drove their shafts through heavy iron mail, and could split a peeled willow rod almost as far as they could see it. You can at least learn to send a steel-pointed arrow through an inch or so of white pine and to hit the crown of a hat nine times out of ten at 30 yards.



1. Bracing a bow.
2. Knot for loop
3. Hand guard shield.
4. Pulling the string.
5. Finger guard.
6. The target.

First, as to the length of your bow: When strung it should be about your own height; and for that it must be about three inches longer than your height when slack and straight. The best wood to use, if you make your own bow, is hickory. Ash and elm will answer, but are inferior, having a tendency to "set." Sassafras, mulberry and black locust are also recommended, but I have never tried them. If you buy a bow, lancewood is the cheapest, and very lively, though somewhat liable to break. Lemon wood is tougher, but slower. The best bows are of snakewood or yew, but they cost from ten to fifteen dollars. There are also good but expensive bows made of two kinds of wood glued together—lance "backed" with hickory, for instance. But, being a boy, you will probably make your own weapon. If you have a little money to spare, save it for arrows, since they are both cheaper to buy and harder to make.

Get from a carriage shop a perfectly straight, clean strip of hickory about six feet long and a little more than an inch square. It must be thoroughly seasoned, otherwise you would need to lay it by in a dry attic for a month or two. Work it flat on the back and round on the inner side—see cross section in the illustration. This can be done with a good jackknife and patience, but it is hard to mark; a jackplane and a spokeshave are a great help. Be careful to make the back on the side that best shows the flat of the grain; if the grain shows edgewise along the back the bow will not be good for much. Then cut the stick to the exact length you have chosen, and find and make the middle. From this point toward the lower end measure off five inches for the handle and mark it. Use a pencil; make no notches or scratches to weaken the fiber. Then, beginning at the marks for the handle, taper the bow evenly down with your knife or spokeshave until the points are about the size of your finger tip. Leave the back flat, and do all your cutting on the rounded side.

The upper limb of the bow will, of course, be a little longer than the lower, but this is as it should be.

Next cut the notches for the string, as shown in the illustration. You can make horn-tips, if you like, first softening the horn in boiling water; but it will answer every purpose if you cut the notches neatly in the wood. Don't cut them too deep. Now string your bow, bending it stoutly—any stout cord will do at this point—and scrape the wood with a bit of sharp glass until the curve is absolutely even from tip to tip. Try the strength of your weapon by holding it upright at arm's length and cautiously drawing the string to your cheek. If it is too stiff work it down until you can readily control it. Finally, when it just suits you, smooth and polish the wood with the finest sandpaper you can get, varnish the surface with good varnish and let it dry thoroughly. Wrap the handle smoothly with green tape, fastening it with glue. If all this has been done with care and skill you have provided yourself with a handsome and extremely effective bow after the old English model.

If you make your own bowstring use stout linen twine or packthread doubled until it is strong enough, lightly and smoothly twisted and well waxed. Don't use fishline; it is too elastic. At one end make a loop just big enough to slip easily over the end of the bow and bind it firmly with waxed linen thread. Slide this loop three or four inches down the upper limb of the bow and tie the other end to the match of the lower limb, using the knot shown in the illustration; the picture makes it much plainer than any amount of explanation in words. Adjust this knot so that when the bow is tightened the string will stand out about six inches from the bow at the handle. When it is well settled in its proper position wrap the middle of it for four or five inches very smoothly with waxed silk. Mark the point which lies exactly opposite the middle of the bow (just above the handle) by using thread of a different color. Always put the notch of the arrow on this mark.

To tighten (or "brace") your bow, set the lower end against the inside of your left foot, grasp the handle firmly in your left hand, and with your right arm raised press strongly with your wrist on the back of the bow, while you push up the loop into the notch with your extended fingers—see illustration. It is quite a trick, but you will soon master it. To unstrain the bow proceed in the same manner, but flip the loop out of the notch with your thumb and fingers.

And now you are ready for the arrows. If you can afford it, buy a few; even one, as a model, will teach you more than pages of description. If you make them yourself, use hard, clean, straight-grained pine; though for very hard service ash or hickory may be employed with advantage. For a bow more than 5½ feet long make the length 28 inches; for a shorter bow, 25 inches. With the tools already described, make the shaft down to about the thickness of a lead pencil, uniformed from end to end, and absolutely straight. Cut in the end a smooth notch about three-sixteenths of an inch in depth (see illustration), and be careful that it fits snugly on the bowstring, but not so tightly as to stick and drag. The feathers—without which no arrow will fly well—are three in number, arranged as shown in the diagram. One must be set exactly on the top side of the arrow as it lies on the string when the bow is held flat, and this determines the position of the others. To put them on, strip the plume from the quill—the tough "skin" of the quill will hold it together—and trim to about 2½ inches long and half an inch wide. Then glue them firmly in place by the "skin," taking care that there shall be no snaggy projections to scratch your hand when you shoot. For blunt heads old brass cartridges of the right size to drive snugly on are excellent; or you can cast heads of lead. If you want sharp points you will have to buy them; but the ordinary sort are cheap enough. They fit on like a thimble; trim the wood to fit, and drive them on tightly.

To protect your left wrist from the slap of the string you may need an arm guard of stiff leather and elastic bans—see illustration. If your bow is very stiff, wear a close-fitting dogskin glove on your right hand to protect your fingers from the rasping of the string. You can cut away the palm if you choose. A good quiver for your arrow is easily made of tin or leather, or even of a stiff cardboard—see illustration.

And now you want to shoot; and if you also want to hit the mark, and hit it hard, you must follow these directions very closely.

Stand erect, with your left side toward the mark, your feet eight or ten inches apart. Grasp the bow firmly by the handle with your left hand; and grasp it so that it lies straight across your hand along the line made by the roots of your fingers, not allowing it to follow the slant of the ball of the thumb. First hold your bow nearly flat, lay your arrow on the mark at the middle, close by the hand that grips the handle, and slip the notch exactly on the middle of the string; being cut deep, it will stay in place. Hook the fingers of your right hand slightly, and catch the string on the tips (from below) so that it lies across the middle of the ball of the last joint. Use only the first, second, and third fingers; the thumb and the little finger should touch neither string nor arrow. The end of the arrow must lie between the first and second fingers—see illustration. The nearer the tips of your fingers you can hold the string, the better.

Now raise your left arm until it points straight toward the target; this brings the bow into an upright position, the top slanting a very little to the right. Hold your left arm as rigid as the bowsprit of a ship, and draw back the string with a strong, even pull until your hand brushes the lower tip of your right ear. At that instant slip your fingers smoothly from the string—and away goes the arrow with a singing of the cord and a soft whistle of the feathers, if you have done all rightly. Be sure to draw your fingers off backward in loosing; never let them follow the string—and never, either shove or slacken with your left hand; just hold steady. Also see to it that you hold the bow so that it will not writhe or twist in your hand as you draw the string, for that makes the arrow "clap" and "wag," spoils the shot, and soon ruins the bow. Wear a cap; or, if you prefer, a hat, pin up the brim so that the string will not graze it.

You must aim while you are in the act of drawing, not by sighting, but instinctively, just as when you throw a stone. Don't try to look along the arrow; look straight at the center of the target. The knack comes quickly if only you start right. You can "steady on your aim" for an instant just before loosing if you like, but never drag or hang fire, and always draw your arrow full to the head. These, in brief, are the essential points, though it would be easy to write a volume of hints and cautions. Of the latter I will add just one—don't persist in using a bow too strong for you. The force of the shot depends far more on the liveliness of the bow than on its stiffness, and most of all on skillful handling.

You can just as well make your own target of cardboard, marking the circles with a piece of chalk and a string, and painting them the proper colors.

TOMPKINS'
New Dry Goods Store, 35 North St.
GREAT MID-SUMMER CLOSING OUT SALE.

The greatest money saving movement that this store has ever known.

We make each season take care of itself here, and all goods of a summery nature must go now. We don't wait until after the season is over, but give you these cut prices on hot weather goods, right in the middle of hot weather.

It would be impossible to enumerate all the special values ready for you here, but the few items which find mention are but samples of the many other goods which we propose to cut in price in like proportion.

A WRAPPER BARGAIN.
Only 100 in this lot, former price 98 cents. Made in the latest style of good cambric, braid trimmed. Closing out sales price 59 cents each.
LADIES' SILK PUFF TIES—White, pink and navy. Former price 25c. Mid-summer closing sales price 12½c each
SILK STRING TIES 5 cents each.
MEN'S 25c TECK TIES—5 doz in this lot. All light colors, latest style, good patterns but we don't want to carry them over into another season, hence they are marked 10c each.
MEN'S GAUZE SUMMER UNDERWEAR—25c quality at Tompkins' 16c each.
MEN'S Fine Balbriggan Underwear, made of fine Maco yarn 50c quality. At closing sale 35c each.
MEN'S SUMMER BALBRIGGAN UNDERWEAR 60c quality, made of fine Egyptian yarns. At Tompkins' 45c each.
LADIES' RIBBED VESTS—8c quality 5c., 10c quality 8c., 12½c quality 10c., 15c quality 12½c.
CHILD'S GAUZE VESTS, size 18 to 32, worth 25 to 35c each; at sale 15c each.
A WORD TO THE MEN. You pay the bills. Do you know the difference between credit house prices and our cash prices? It is not necessary to tell you that you can buy cheaper for cash. It may surprise you to learn that it is often 33 per cent. and hardly ever less than 20.

MILLINERY.
Closing out of all Trimmed Hats at just half price. You will find the regular prices marked on each hat. Buy them at this clearing sale for just half that price. All colors marked at closing prices for this week

COTTON DRESS FABRICS.
JACONET—This week we will put on sale about 500 yards of 30 and thirty six inch Jaconet, in a large variety of this season's designs and colorings, and a good assortment of patterns. In addition, we shall offer 30 pieces of pretty Organdies and Lawns, 32 inches wide. Made to sell for 10c a yard. Your choice of this entire lot at our clearing sale of summer goods 4c per yard.
PIQUE. The popular fabric for skirts and suits. One lot of ten pieces of white ground Pique, with small figure or pin stripe, worth 18 to 25c. Closing out sales price, per yard, 10c.
NEW ORGANDIES AND DIMITIES, 15 and 18c quality. None must be carried over. All must go at this clearing sale, hence price is marked 10c per yard.
IT WAS A CONDITION, not a theory, that confronted the man, who, finding his blanket too short for comfort cut a yard from one end and sewed it to the other. Some merchants cut quality to meet price. The secret of our success—that which has made us the LEADERS OF THE RETAIL DRY GOODS TRADE IN THIS CITY is the invariable rule to buy the best goods in any particular line that we handle
HAMMOCKS at closing out prices.
ONE DOZEN HAMMOCKS, with pillow, regular $1. At sale 59c each.
ONE DOZEN HAMMOCKS, with pillow and wide heavy fringe, were $2. Closing out price $1.50 each.
SCRIM FOR CURTAINS 3½c per yard.
A WORD TO WOMEN—Its handier to have things charged, you say. But is it worth 25 per cent? It seldom costs you less than that, almost always more. Very often 50 per cent. Get your husband to figure up what this means on your purchases for a year.
REMNANTS OF SILKS in different lengths. Ends of pieces from our great silk selling of the past season, many in shirt waist lengths, in fancy checks and plaids. Because they are remnants they must go and they are marked $1 goods at 50 CENTS A YARD FOR THE REMNANT.

PARASOLS.
Every Parasol must go. None will be carried over, and at this sale you can pick a rare bargain. All are new, fresh goods, bought for this season's selling—Plain taffetas, two toned taffetas and fancy plaids and checks. Every one marked way below cost to close them out now. You will find them on a separate table, each one with a ticket showing the former price and the closing out price.
REMNANTS CLEARED OUT. July clearance sale of the accumulation of the entire season's business—approximately 4,000 yards of ginghams, lawns, dimities, organdies, percales, white goods, etc., will be offered to the public at this sale at less than the cost of the materials. If you need a waist, a child's dress, a skirt or any garment requiring a limited number of yards, we advise you to look over this pile of remnants. You will find what you want here and at much less than you can buy it from the piece.
REMNANTS OF TOWELING, each three yards long and linen, 25c a remnant. worth 10 and 12½c a yard.
GETTING there the fastest with the mostest men was Gen. Forrest's definition of military genius. Giving the most goods to the most people for the least money is our definition of business, and this week will demonstrate that our ideas of business are endorsed by the people.

SHIRT WAISTS
Must go now. Every 50 and 65c waist in the store, plain blacks and colors, is marked for this sale 35c each. Every $1 and $1.25 Shirt Waist in the store is marked for this sale, colors and plain black, 69c each.

LIGHTNING'S DESTRUCTIVE WORK

Several Buildings Struck in Sussex County—A Barn Burned Near Dingman's.

Wednesday afternoon's storm was very severe in some parts of Sussex county. Isaac Struble's barn, at Bevans', was struck by lightning and destroyed. The tenant house on Struble Stoll's farm, in the same neighborhood, was struck, but was not set on fire, and the Peters' Valley school house was also struck and somewhat damaged.

The barn of Wallace Bensley, back of Dingman's Ferry, Pa., was struck and burned, together with all its contents—a quantity of hay, two horses, wagons, and many other articles.

NOT MUCH OF A BLAZE.

Little Damage Done by the Fire in Elwood & Walker's Creamery Building.

Fire, believed to have originated from a cinder, burned a quantity of clothes belonging to Eugene McCarter, who resides over Elwood & Walker's creamery on Cottage street, Thursday afternoon. The smoke was seen pouring out of a window, and an alarm was sent in from box No. 14, at Wickham avenue and Prince street, but before the companies arrived Mr. McCarter and other employes of the creamery extinguished the flames, Chief Higham quickly sent in the recall.

Funeral of Mrs. Mary E. McBride.

The funeral of Mrs. Mary E. McBride was held from her late home, two miles south of this city, yesterday afternoon, at 1 o'clock. Because of the absence of her pastor, Rev. Theron Brittain, the services were conducted by Rev. E. I. Gosbee, of South Centreville. A large concourse of neighbors and friends attested by their attendance the love and esteem in which Mrs. McBride was held. The interment was in Hillside Cemetery.

Meeting of the Democratic City Committee.

At the meeting of the Democratic city committee at the Holding House, Thursday night, George H. Thompson was made permanent chairman, A. C. Bowers secretary, and W. R. Rodgers treasurer. John A. Wallace presided. Each ward will select its inspectors and clerks, and they will be certified to the Mayor before August 1st.

St. Swithin Evidently in a Huff.

Although it did not rain on St. Swithin's day, the frequency and severity of the rains that we have since had would seem to indicate that the old saint is in just as much of a huff as he could possibly have been had there been a cloudburst on the day with which his name is associated.

The Chime Whistle's First Alarm.

Residents of the north and east ends of the city state that the fire whistle did good service. Thursday afternoon. It could be plainly and distinctly heard all over the territory which it is meant to alarm.

NEW HAMPTON.

The Welcome Rain—Successful Concert—Many Personal and Local Notes.

Correspondence of ARGUS and MERCURY.

—At last the long-wished-for rain has arrived, and the parched earth and wilted vegetation gladly received it.

—W. H. Strong was the first farmer in this section to finish haying.

—Miss Bessie Beckford, of Albany, is the guest of Miss Augusta Wickham.

—The concert at the Denton church, last Friday night, was well attended and well liked. It netted the society about $15.

—W. H. D. Lasher and Miss Alice Edwards, of New York, spent Sunday near this place.

—Fred Tilden, of Jersey City, spent Sunday in this village.

—Miss Sarah Stiles, of Brooklyn, and Benjamin Vanderlip, of Albany, are spending a short vacation at "Chechunk Farm."

—George Huggins and sister, Miss Lizzie, of Nevis Island, and Miss Van Etten, of Port Jervis, are guests of Robert Rodman.

—L. H. Bouton, of New Rochelle, is spending a week with his family at "Chechunk Farm." Mr. Bouton's son Roy, who spent last summer here, has enlisted in Company M, of the Eighth Regiment of New York. His many friends here will be glad to hear that he has been promoted from a private to a corporal.

—Rev. G. B. Crawford occupied the pulpit of the Denton church, Sunday, preaching both morning and evening.

WHAT OUR NEIGHBORS IN SULLIVAN COUNTY ARE DOING.

The News from All Parts of the County—Many Matters of Interest Condensed from Our Sullivan Exchanges and Contributed by Wide-Awake Correspondents.

—The O. & W. is about to put in a switch and stone dock at Livingston Manor for the use of J. M. Sprague.

—The story that a trunk containing the body of a two months' old child had been found near Livingston Manor was a hoax. The trunk belonged to a Fallsburgh woman and was lost from a wagon while being taken to the depot. It contained nothing but wearing apparel.

—Highway Commissioner Voorhees reported to Rockland's town board at a recent meeting that the repairs to the covered bridge on the Beaverkill at Roscoe would cost as much as a new lattice bridge. The board instructed Mr. Voorhees to make a careful examination and decide whether it was for the town's interest to repair the old bridge or build a new one.

—Diphtheria has made its appearance in the family of Mel Gordon, at Youngsville. His daughter Adelia has died from the disease and his other children are recovering.

—There are an unusual large number of city boarders in the Beaverkill valley.

—Plans are being perfected for building a colony of Summer homes at Revonah Park, near Liberty.

—Matt Decker has purchased of the Chemical company the four houses along upper river in De Bruce. The removal of the acid factory makes DeBruce seem like a deserted village.

—Miner DeKay, son of Dr. W. H. DeKay, of Hurleyville, has entered the U. S. service as an assistant surgeon.

—James Somers, who assaulted and killed Patrick Morrison, near Liberty, June 28, has been released on $1,500 bail pending the Grand Jury's action.

—While returning from a hay field, Saturday, Bernard Harvey, of near Livingston Manor, stumbled and fell on his scythe, while running down a steep hill, and his hand was very badly cut.

—A flag staff having been placed on the cupola of the court house the stars and stripes now wave over the building.

—A negro working at the Hotel Rockwell, Monticello, broke open the cash register a few days ago and stole $35. He was taken in hand by Mr. Rockwell and frightened into confessing his guilt.

To Camp at Twin Lakes.

A party of young men, six from this city and five from Port Jervis will go to Twin Lakes, Pa., Monday, for a two weeks' camping trip. Those from this city are Chris Klobs, Noble Wood, Wylie Smith, Robert Curran, Frank Holden and Harry Lindsey.

Base Ball Notes.

—At Port Jervis, Wednesday, the Chester nine defeated the local nine by a score of 9 to 8. The game was a most exciting one. Port Jervis made three runs in the ninth inning, tying the score. A wild throw in the tenth inning made it possible for a Chester player to get over the plate and win the game.

SOUTH CENTREVILLE.

Next Sunday's Services—Personal and Local Notes.

Correspondence ARGUS AND MERCURY.

—Services as usual at the Presbyterian Church, next Sunday morning and evening. Evening subject: "A successful life—an outlook upon the conditions that confront the youth of to-day."

—Misses Fannie, Jadea and Melvina, daughters of Mr. and Mrs. Charles Halstead, of Newark, N. J., are on their annual vacation visit to their grandparents, Mr. and Mrs. Halstead, of this village.

—Among those heard from who finished their haying in this vicinity, last Saturday, are J. R. Tryon, Walter Harlor, G. D. Booth and John Ketcham. The latter gathered 108 loads. He had considerable of last year's crop on hand.

—Mrs. B. S. Ellsworth and children, of New York city, are on a visit to Peter Morrison's, of near this village. The former family lived on Castle High, a few years ago, before going to New York.

—John Straine is selling fine new potatoes of his raising on the Mapes farm, near this village.

AMITY.

Death of Mrs. Alonzo Williams—Church Social.

OF INTEREST TO WOMEN.

It is estimated that in England one woman in every six earns her own living.

In Maryland in 1820 women who were property owners and had no husbands were entitled to vote.

Berlin has female commercial travelers, who go their rounds on tricycles, to which are attached their boxes of samples.

The countess of Carlisle and a coal carter are among those elected to the membership of the parish council at Brampton, Cumberland.

Mdlle. Valentine About, the eldest daughter of the well-known French novelist, has started a school of millinery for apprentices and amateurs in Paris.

Mrs. Zerisah Gould Mitchell, who died recently, was the last Indian princess in Massachusetts and was a lineal descendant of the famous Massasoit.

Tacoma has a harbor mistress. Miss May Fuller. She is the only woman in the world who holds such a position. She made herself prominent by being the first woman to ascend Mount Tacoma.

An American spinster, it is said, has invented a commercial paper which excludes the possibility of forging names or otherwise tampering with its surface. She has sold the invention for £5,000.

Miss Estelle Reed, a Wyoming young woman, who has been made superintendent of Indian schools, was indorsed by senators from 35 states, the Indian Rights association and a number of prominent educators and educational associations.

The youngest peeress in her own right is Lady Beaumont, a very little girl. There are not very many, in fact, only ten at the present time, four of whom are widows, and three, among them Baroness Burdett-Coutts, are married to commoners. Only one of the ten has married a peer, and that is Baroness Conyers, who is better known as the countess of Yarborough.

GLOBE SIGHTS.

It is very easy to insult a hungry man.

The expected happens oftener than the unexpected.

If you must have your picture taken, for heaven's sake don't pose.

Every man has probably spent a dollar trying to collect 50 cents.

When a man wears his watch chain on both sides of his vest, look out for him.

Every year the farmers expect 30 bushels of wheat per acre, and get 15.

A girl in Atchison is so clever, capable and accommodating that she is getting a reputation for being good looking.

All we ask of the Atchison women going to the seashore is that they don't send back any pictures taken in their bathing suits.

When a girl has her picture taken, and poses as a Grecian goddess, we wonder if it ever occurs to her that she would look better picking a chicken?

No one has a right to gratify his love for music after nine o'clock at night. This is a town where everyone is up by seven, and no one can afford to be kept awake at night.—Atchison Globe.

FIGS AND THISTLES.

Spare the salt lose the savor.

The big "I" sees everything but himself.

Departing modesty never buys a return ticket.

Zeal without knowledge is worse than dynamite.

No man ever asked the devil twice for employment.

It is because men are corruptible that the devil chooses to work overtime.

The temptation overcome by the boy is never encountered in the career of the man.

There are men who can show you the road to heaven quicker than they can direct you to the nearest church.

The trees of life are surrounded by human quails prophesying rain. Anyone can be a rain prophet. It takes grace to be a prophet of sunshine.

Duties do not come like eager canvassers and solicit us. Like coy strangers, they must be called upon before we can become acquainted with them.

The true art of life is to select wisely. In its largest meaning, a sense of fitness is the supreme grace. The survival of the fattest is marked by their choice of the fittest.—Ram's Horn.

A Lost Soul.

Rev. Kennedy, while preaching in a church in Hannibal, Mo., impressively asked: "Who can portray the condition of the lost soul?" An awful silence succeeded his question, but presently the husky voice of a tamale man in the street startled the congregation with the response: "Hot! Red hot!"

AFRAID OF CARLISTS

Madrid Hears of Hidden Arms and Ammunition.

SUPPRESSING CARLIST NEWSPAPERS

Government Taking Every Precaution to Prevent a Rising—Spaniards Fleeing From Coast Cities—Papers Can't Print Anything About Watson.

LONDON, July 22.—Despite the denial of the Madrid correspondent of The Times, the special dispatches from Madrid to the London morning papers, especially such as come by way of the frontier and elude censorship, continue to assert that the Carlists are active. For instance, the Madrid correspondent of The Standard says:

"The government continues to receive from civil and military authorities in many provinces alarming information as to Carlist preparations. Arms and ammunition have been introduced by many mountain passes into Navarro, Aragon and Catalonia, it is supposed with the connivance of the local authorities on both sides of the frontier.

"The Carlist agents and leaders know that they can act with a certain amount of impunity, because so long as the pretender and his representatives and newspapers in Madrid patriotically disclaim all intention of disturbing the peace during the war with the United States, they feel certain that Senor Sagasta and the authorities will not dare arrest or molest Carlists. They assume that Senor Sagasta cannot afford to affront a large section of the people and risk civil war when his hands are so full.

"In some few places, however, the military governors have suppressed the Carlist newspapers and have warned the Carlist juntas that stronger measures will be taken if they persist in agitations. The Carlists in Madrid say that the first risings will occur in western, central and southern Spain, their ancient strongholds, in order to show the extent and power of their organization."

A dispatch to The Standard from Corunna gives a lively account of the stampede into the country owing to the fears of the "approaching American squadron." The correspondent says there is a daily stream of bullock carts with furniture, and the town is nearly deserted by the better class of the inhabitants.

The local papers there have frightened the people so much that the captain general summoned the editors and threatened them all with imprisonment if they printed another word about Commodore Watson's squadron. The exodus, however, shows no sign of diminishing.

A pamphlet has been distributed among the workingmen urging them to demand peace at all cost owing to the terrible distress and the lack of work and food. It is evident that there will be trouble in Corunna, says the correspondent, and that the working classes will make it unless something is promptly done.

General Polavieja started from Barcelona for Madrid last evening in response to a sudden summons to the capital.

According to a special dispatch from Madrid Senor Sagasta, the premier, has again offered to resign and has been counseled by the queen regent to advise with other political leaders relative to his future course.

It is also reported that General Polavieja's return to Madrid is closely connected with a change in the ministry and that General Weyler will form a cabinet, in which General Polavieja will be minister of war.

This combination, it is further asserted, will support the dynasty, repeal the suspension of constitutional rights and continue the war to the utmost limits.

The queen regent has received congratulatory dispatches from the pope and several sovereigns on the anniversary of her birth. The pope's telegram was very sympathetic.

A dispatch from Havana says that the American warships before Manzanillo separated Wednesday five proceeding to a point off Cape Cruz, where they bombarded a signal tower, causing damage.

A CARLIST PLOT.

Said to Have Been Unearthed in Madrid. Weyler May Be Arrested.

BAYONNE, France, July 22.—A dispatch received here from Madrid dated Wednesday, says the police searched several Carlist houses the previous evening and adds that the government is satisfied of the existence of a widespread Carlist plot. Consequently the Carlist newspapers will probably be suppressed.

Continuing, the Madrid dispatch says: "In spite of the denials of the ministers, everything points to the imminence of a crisis. It is believed General Polavieja will become minister of war in a national cabinet, which the condition of affairs seems to call for.

"There is an unconfirmed rumor that the government intends to arrest General Weyler. At the last audience which the general had with the queen regent he protested against the calumnies leveled at him and said, 'Above all, I am a soldier, and I will valiantly defend the institutions of my country and the royal house.'

"As General Weyler has immense prestige among the Spanish officers, especially among those returning from Cuba, it is regarded as probable, if a national ministry is formed, that his assistance will be invited.

"The government has prohibited the publication of news of the movements of Spanish warships, and therefore the whereabouts of Admiral Camara's fleet is not known. It was last reported at Port Mahon."

Bourgogne Inquiry at Havre.

ATLANTA, July 22.—General John B. Gordon was yesterday unanimously re-elected to the position of commander in chief of the United Confederate Veterans. All of the officers were re-elected amid a scene of great enthusiasm.

READ-MARK-LEARN.

Some Pertinent Questions That Can All Be Answered With One Reply.

Why is it that in Middletown and its suburbs, with a combined population of over 12,000, there is only one medicinal preparation which gives statements from residents to back up its representations?

Why is it that Doan's Kidney Pills do this in Middletown as well as in every city and town of any importance in the union?

Why is it that there are advertised in every newspaper a dozen remedies and only one can supply local proof, local endorsement of its claims?

The solution of the problem is simple. Only one remedy has the curing and staying power. Other remedies make all kinds of gigantic yet futile efforts to get local proof, but the attempt ends in producing a statement or two from places that as far as Middletown citizens are concerned might as well be in the moon. Here is Middletown proof which backs up the merits of Doan's Kidney Pills.

Mr. Cyrus Coddington, of No. 150 Wickham avenue, says: "Some seven years ago I had an attack of kidney complaint, a very severe attack. It left me and I was not again bothered until a short time ago. The last time it did not take so long to straighten me out and I gave Doan's Kidney Pills the credit for it. I got a box at J. E. Mills' drug store. I had to get something for my back ached acutely. I couldn't stoop or lift and the kidney secretions went wrong. After using Doan's Kidney Pills the pain left me and the secretions righted themselves. They did all that could be expected of them."

Doan's Kidney Pills are for sale by all dealers, price 50 cents per box. Sent by mail on receipt of price. Foster-Milburn Company, Buffalo, N. Y., sole agents for the United States.

Remember the name Doan's, and take no substitute.

"Life Renewer" For Ladies.

Olivia Peterson, of Coldwater, Mich., writes: "I had not been able to sit up a half a day at a time for thirteen years until I used the *Mystic Life Renewer*. It has cured me of nervous troubles, headache and a very bad stomach. It has helped me in so many ways, and cured me of afflictions that the doctors said could not be cured. The blessed Life Renewer has done more for me than all the Patent Medicines, Doctors and Christian Science treatments combined. It is the most wonderful medicine I ever saw."

Sold by J. E. Mills, No. 2 Empire Block Middletown, N. Y.

Distressing Stomach Disease.

WEATHER INDICATIONS.

BY ASSOCIATED PRESS.

WASHINGTON, D. C., July 22.—Showers in southern portion to-night and Saturday; northeasterly winds, becoming easterly.

THE TEMPERATURE.

The following was the registry of the thermometer at Pronk's drug store, to-day:
7 a. m., 74°; 12 m., 87°; 3 p. m., 79°.

The Brooklyn *Eagle* is authority for the statement that a plan devised by ex-Governor Hill for preventing the passage of the force bill was thwarted by the refusal of the Tammany members of Assembly to assent to it. Bills appropriating money can be passed by a majority vote but a quorum of three-fifths of all the members of the Assembly must be present when the vote is taken. The force bill carried an appropriation for putting the provisions of the measure into effect. The Republicans have a majority but not three-fifths of the Assembly and Governor Hill's suggestion was that all the Democratic members resign, thus leaving the Assembly without the necessary quorum. According to the *Eagle* all the Democratic Assemblyman, with the exception of those from New York city, were willing and anxious to resign but the Tammany men would not do so without the approval of Croker, or his representative, John F. Carroll. The latter would not take the responsibility of advising resignation and thus the opportunity for blocking odious legislation slipped away.

The *Tribune's* Washington correspondent, who enjoys unusually good opportunities for securing information as to the plans and purposes of the administration, and who on more then one occasion has been made its semi-official mouthpiece, has a dispatch in to-day's paper, which undoubtedly gives the real intentions of the administration in regard to Watson's squadron. He says that the squadron was organized as a "bluff" for the purpose of preventing Camara going to the Philippines with his fleet. If Camara went on to the east, Watson's orders were not to menace Spain, but to follow the Spanish fleet with all possible dispatch. The mere announcement of the scheme of sending a squadron across the ocean had the effect expected and Camara hurried back through the Suez canal for the purpose of protecting the Spanish coast. Continuing, the dispatch says.

"It is stated advisedly and upon the highest authority that the President has never contemplated an attack on Spain except as an extreme resort to terminate the war. It has never been the intention to bombard cities however strong or helpless, or to capture and destroy fishing vessels and defenceless coastwise commerce until other measures had failed. The occupation of the Philippines and of Porto Rico, with the overthrow of Spanish sovereignty in those colonies and the ejection of Spanish troops from the whole island of Cuba, without great loss of life from disease, are to be achieved, if possible, before hostilities are to be carried into Europe."

ESCAPED FROM SING SING.

How Henry Barnes, the Aged Horse Thief, Outwitted His Keepers.

Henry Barnes, the old man, who in December, 1896, was sent to prison for five years for stealing a horse from Ben Writer, of Otisville, escaped from Sing Sing, Friday. Barnes is seventy-nine years old and badly crippled by rheumatism. He was a quiet prisoner and on account of his age and infirmities was allowed many privileges and was never closely watched. He was set, Friday, to cleaning up one of the approaches to the prison and though his work was outside the walls it was not thought worth while to send a keeper with him. He did not return and when search was made for him his discarded prison garb showed that he had planned and arranged for his escape.

Warden Sage expects to capture the old man without difficulty.

PEACE NEGOTIATIONS.

Reported to Have Been Opened by Spain in Paris.

LATEST FROM MANILA

Aguinaldo Has Proclaimed Martial Law and Made Himself Dictator.

SPANISH AMBASSADOR IN PARIS INSTRUCTED TO APPROACH OUR AMBASSADOR.

PARIS, July 22—The *Matin* publishes a paragraph saying that "while nothing definite is known, it is rumored that Senor Leon Y. Castillo, the Spanish Ambassador at Paris has been instructed to approach U. S. Ambassador Porter with a view of opening peace negotiations. Up to three o'clock this afternoon, however, there had not been any meeting between Castilla and Porter, although, it is said something may possibly develop from the situation. Any negotiations, however, will be kept absolutely secret until they have reached a stage when they will assume an official character."

AGUENALDO MAKING TROUBLE.

Has Proclaimed Martial Law and Made Himself Dictator.

BY ASSOCIATED PRESS.

WASHINGTON, July 22.—The following cablegram has just been received at the War Department:

HONG KONG, July 22.—Aguinaldo declares dictatorship and martial law over all islands. People expect independence. Recommend China ponies.

(Signed) ANDERSON.

Col. Anderson was the senior army officer at the Philippines when the dispatch was sent, probably several days before its Hong Kong date. The reference to China ponies means that Col. Anderson desires that kind of cavalry animals.

DISBANDING HIS ARMY.

Garcia Issues a Decree Permitting Farmers and Farm Hands to Leave the Ranks and Go Home.

SANTIAGO, July 22.—The French cruiser Rigault de Soninully has arrived here with supplies for the relief of the French citizens of Santiago.

A large exodus of Cubans is expected during the next few days, as they are returning to the cultivation of the country, the chief source of wealth on the island.

Notwithstanding Gen. Garcia's bitter complaint to Gen. Shafter that he had been ignored, and had been forced to tender his resignation as a general in the Cuban army, he is going on with his preparations for a contest with Spanish forces at Holguin and Manzinillo.

Gen. Garcia has issued a decree authorizing Cubans, who have been driven from their plantations by Spaniards, and who have taken refuge for safety in the city and towns, to return to their farms and plantations. They are assured of protection by his forces. Like permission is given to those in his ranks who were recruited from farm lands or were employed in the fields at the outbreak of the war.

Gen. Garcia's permission to the men in his ranks to go back to work is construed to mean an effort to disband his forces.

THE PHILIPPINE INSURGENTS.

Getting Artillery Into Action—Keeping Up Spanish Courage.

MANILLA, July 19, via Hong Kong, July 22.—The insurgents are getting their artillery into action against Bando, Santa Maze and Malat. The fighting is desultory. The Spaniards have been driven from the trenches outside Malat and the insurgents are strongly entrenched near the walls of the fort.

It is said on semi-official Spanish authority in Manilaomon that the recent news from Cuba is a vile English fabrication, that in reality the Spaniards have been victorious and that Admiral Camara's squadron has coaled at Singapore, and is expected here on July 25.

POOR COMFORT FOR SPAIN.

MADRID, July 22.—It is asserted here that the Spanish prisoners comprised in the capitulation of Santiago do not exceed 10,000 and that the ammunition captured there is almost all useless.

EXPECTS PEACE SOON.

MADRID, July 22—The Minister of Public Instruction, Senor Gamazo, is authority for the statement that peace honorable to Spain and her army will shortly be concluded.

CAMARA'S FLEET GOING TO CEUTA

GIBRALTAR, July 22.—It is now assured that Camara's fleet is coming to Ceuta. Over three hundred families have fled from the vicinity of the Ceuta fortress.

HERO HOBSON HERE.

Thinks Two Spanish Ships Can Be Saved if Raised at Once.

NEW YORK, July 22.—Naval Constructor Hobson, of Merrimac fame reached here this morning on the cruiser St. Paul. He immediately took a train for Washinton. It is believed he is the bearer of Admiral Sampson's official report of the destruction of the Spanish fleet.

Lieutenant Hobson said that he had inspected the wrecked Spanish war ships and he is certain if prompt action is taken the Cristobal Colon and Maria Teresa can be saved. Should a gale spring up the Colon and the Teresa would be lost to us and that is why he is going to Washington to explain to the officials there the necessity of making contracts at once for raising of war ships and they doubtless will do so when they understand the situation.

ORDERS FROM BERLIN.

Germans at Manila Expected to Show Their Hands.

HONG KONG, July 22.—It is learned, to-day, that the German cruiser, Kermoran, made a hurried trip here from Manila to send a long cable dispatch to Berlin. She stopped here long enough to receive a lengthy answer. It is thought that after her arrival at Manila, the Germans will show their hands.

TO-DAY'S CABINET MEETING.

WASHINGTON, July 22.—The Cabicet session, to-day, was devoted to the Porto Rico expedition. After the session it was specially announced and positively stated that there had been no discussion whatever as to the peace outlook, as to the new phase created by Cuban insurgents' independent attitude, nor as to the action of Aguinaldo in the Philippines. Gen. Miles' departure, however, was made a matter of congratulation, and the steps to follow were thoroughly reviewed.

DIDN'T TALK ABOUT THE WAR.

WASHINGTON, July 22—The German Ambassador, Dr. Von Holiben, had a half hour's conference with the President to-day.

The Associated Press can state positively and authoritatively that the call had no references to the Philippines, to peace negotiations or to any matter connected with the war.

UNEASY ABOUT GARCIA'S ATTITUDE

WASHINGTON, July 22—Although the War Department has heard nothing officially from General Shafter in regard to Garcia's defection, it is noticeable that the matter is causing the officials a good deal of apprehension.

FOR THE LITTLE ONES.

George Lea Gathering Clothing for the Convalescent Home.

Geo. Lea, whose heart is so full of kindness that it bubbles over frequently, to-day drove about town with a dray, drawn by a tandem pair, collecting clothing for the children of the Middletown-Goshen Convalescent Home. He was attended by a cornetist, who played patriotic airs. Several large bundles which were left at the Madison House formed the nucules of a nice collection of of apparal for the little ones.

Luther Lodge's Picnic.

The family picnic of Luther Lodge, I. O. O. F. was held yesterday afternoon at Bauer's Grove. Philipsburg and was well attended. The lunch was brought in baskets, and all had a most pleasant time until the rain came. During the rain Mr. Bauer threw open his hotel to the picnickers.

Mamie Conkling Still Missing.

There is nothing new from the missing child at Guymard. The searchers are disheartened, and only the members of the family are now engaged in the hunt.

Has Been Appealed.

GRACE CHURCH LAWN PARTY.

A Tennis Tournament and Other Attractive Features.

It is earnestly hoped that every member of Grace church, at least, will, if necessary make an effort to attend the lawn party, next Tuesday afternoon and evening, at Miss Horton's residence, on Roberts street. In the afternoon from 4 to 6, a lawn tennis tournament will be played in which some of our best players, ladies and gentlemen, will appear, and for the evening a musical programme with Berg and Bright's orchestra has been arranged.

McQuoids Vote to Accept Niagaras' Invitation to Visit Pittston.

At the special meeting of McQuoid Engine Co., last evening, it was decided to accept the invitation of Niagara Engine Co., of Pittston, Pa., to participate in the fire parade at Pittston on Sept. 29th. Committees on transportation, music and badges were appointed and the meeting then adjourned.

Foreman Short has issued a formal order for drill every Thursday evening until the time of the Pittston parade.

SPINAL [illegible]

A MIDSUMMER TEMPEST.

FIERCE STORM BROKE OVER THE CITY THURSDAY AFTERNOON.

Sharp Lightning, Torrents of Rain and a High Wind Do Much Damage—The Worst Storm in Several Years—Several Houses Struck by Lightning—Many Trees Blown Down, Streets Flood and Cellars Flooded—Hilly Street Badly Washed—The Storm's Work Out of Town.

With scarcely any warning of its coming a thunder storm of unusual severity burst over this city at 4:30 o'clock Thursday afternoon.

Vivid lightning flashes followed each other in quick succession and loud thunder claps followed so quickly upon the flashes that all knew that lightning was doing its destructive work within the city limits. The half hour that the storm lasted was a most uncomfortable one for the timid and even those who are not usually afraid of lightning felt relieved when the storm was over.

The rain came down in torrents and was swept along in sheets by the high wind which accompanied the storm. Many paved streets were flooded and the catch basins not being big enough to carry off the flood, the streets at the points at which they are located were transformed into lakes. At Center and King streets the water was at least eight inches deep, and flooded not only the roadway but the sidewalks as well.

Tons of earth were washed from the hill streets and deposited in heaps at their bases. It will take a great deal of work to put the streets back in as good condition as they were before the storm.

Many of the sewers proved entirely too small to carry off the flood of water which found its way into them. From all the lower parts of town come complaints of cellars having been flooded with water and sewage that backed up into them. In the low-lying sections many gardens were so badly flooded that they are almost if not quite ruined. Surface water poured into many wells, roiling them badly and in some instances so fouling them that they will have to be cleaned before the water from them can be used.

Probably no part of town suffered more damage than North street between Wickham avenue and Railroad avenues. A torrent of water poured into the street from Wickham avenue and great quantities of sand and all kinds of debris were carried down by the flood. The provisions made at this point for carrying off the water are barely sufficient even in moderate storms and yesterday they were entirely inadequate. The street was soon filled with water from curb to curb and many cellars on the east side of the street were flooded. The water even made its way under the doors of stores in the Vanderbeck building and flooded them.

Mrs. L. L. Purdy went into a bedroom on the second floor of the Holding House, during the storm, to close the windows. She found the room full of smoke and discovered that the leather cover of a trunk had been burned. There was nothing to show where the lightning went after such a fantastical operation.

The bolt which did this work shocked Liveryman Sayer and Alderman John Gavin, who were in Gavin & Nevin's shop opposite. For some time afterwards the air in the vicinity had a distinct odor of brimstone that even the rain could not dispel.

Will Kurtz, who conducts a market at the corner of Albert street and Beattie avenue, was looking out of the window of his shop when a bolt struck the telegraph pole opposite and split. Half of the ball, as large as a man's fist, dropped to the ground, while the other half shot across the street to the roof of the house and market. A hole was torn in the roof but the lightning followed the gutter from the break in the roof to a leader, tearing its way into the parlor, on the ground floor, knocking the plaster flying and then back into the leader to the ground without doing further damage.

Mr. Kurtz was knocked half way across the shop by the shock, and it was several minutes before he recovered.

The house of Daniel G. Comings, of No. 49 Prince street, was struck. A hole was torn in the top of the chimney and the bolt then flew into the roof, setting fire to some clothes and carpet in the garret.

From there it came out and followed a leader across the porch to a bay window, and so down into the ground.

Mr. Comings went into the garret and with a few pails of water quickly extinguished the fire which had started there.

A bolt struck in the garden at Mr. Goering's, on Broad street tearing up a grape vine.

Gardens on Grant and Spring streets and Benton avenue, and many wells were ruined by the floods of water and filth washed into them from Draper brook which overflowed its banks.

A fine maple tree at the residence of W. F. O'Neill, on Highland avenue, was split in two, and the top of a maple in Seymour DeWitt's yard, on South street, was blown off.

Part of the city's force worked well into the night clearing away the mud which covered North street.

The East Main street flood nearly washed Flagman Charley Dailey's little house from its foundation.

On East avenue two trees in front of A. Budwig's were blown down and one was blown down in front of Truckman Carter's on the same street.

John Bryant's cellar, on King street, was flooded.

When Erie No. 2 passed along the depot platform at James street she shot through four or five inches of water, throwing it to a side as if it was a snow drift.

An armature of one of the generators at the Traction Company's power house was burned out and travel stopped for some time.

DAMAGE OUT OF TOWN.

The house of Addie M. Darby near Howell's was struck by lightning and the slate roof badly torn and the side of the house damaged. An old lady sitting near a window was not hurt.

Theodore J. Denton, of Denton, had two stacks of hay struck by lightning and set on fire.

A pear tree at S. C. Brown's, near New Hampton, was struck and people in the house slightly shocked.

At H. D. Thompson's, beyond Phillipsburgh, a large tree was struck.

Four large trees in Ira Smith's door yard, near Phillipsburgh, were blown down.

The storm was particularly severe in the town of Hamptonburgh and east of this city. North, west and south of this city there was little if any rain.

At Amity and in its vicinity the storm was very heavy, hailstones falling of such size as to level all of the garden truck in the vicinity.

BURGLARS AT WORK.

Broke Open the Safe at the Dewsnap Glove Factory But Got No Booty.

It came out Thursday night that burglars had broken into Dewsnap's glove factory, at Mechanicstown Wednesday night, and blown open the safe. There was nothing to be taken after an entrance was effected and the burglars left a note saying:

"DEAR LADY—There was no need of locking this safe."

The same night the burglars broke into Charles White's blacksmith shop at Phillipsburgh, and stole a number of tools which were used in opening the Dewsnap safe.

OBITUARY.

Mrs. Joanna Gray.

Mrs. Joanna Gray, an aged and respected lady of this city, died, Thursday night, at the home of her daughter, Mrs. James H. Faulkner, No. 83 Linden avenue. She had been ill for nearly eight months, and her death was not unexpected. Surviving her are four children: James Dewitt Gray, of Paterson; Gilbert E., of this city; Josephine, wife of Wm. BLINDED BY LIGHTNING.

Ira Ryerson's Close Call—A Stanchion in His Barn Shattered.

During Wednesday afternoon's storm as Ira Ryerson, who lives on the Lower Road, was putting his cattle in the barn a sharp flash of lightning blinded him for a moment. When he was again able to look around he found one of the cows wandering aimlessly around as if dazed, the stanchion which held her having been smashed. Another cow was knocked down but was not injured.

This is Mr. Ryerson's second visitation from lightning a valuable horse having been killed a year ago.

Still in a Critical Condition.

There is little change reported in the condition of farmer Berry, who was struck by lightning, near Pine Bush, Wednesday.

MILES OFF AT LAST.

He Finally Starts After Many False Alarms.

ACCOMPANIED BY A STRONG CONVOY

Battleships and Cruisers Go With the Expedition—Two-thirds of the Men at Chickamauga Will Probably Go to Porto Rico.

WASHINGTON, July 22. — General Miles, leading the military expedition against Porto Rico, started at 3 o'clock yesterday afternoon from Siboney, Cuba, for the point on the island of Porto Rico where it is the intention that the troops shall land. It is expected that General Miles will wait at some appointed spot on the route for the expeditions from Tampa, Newport News and Charleston to fall into this column. These expeditions are all under way, some of them with two or three days' start of General Miles, so that the delay should not be very great. After all the difficulty about the naval convoy and the first conclusion of the naval authorities that none was necessary the strength of that now furnished is surprising. There is a battleship of the first class, the Massachusetts; an effective protected cruiser, the Cincinnati; a speedy and well armed gunboat, the Annapolis, and four vessels of the auxiliary navy which have already proved by their performances in Cuban waters that they are fully equal to the ordinary gunboats in offensive power. These are the Gloucester, which distinguished herself in the destruction of Cervera's squadron; the Wasp, which has attained an enviable notoriety as a destroyer of Spanish blockhouses; the Leyden, which for a time was the sole representative of United States power in Havana harbor, and the Dixie.

Secretary Alger believes that General Miles on the Yale will arrive at his destination Sunday morning with 3,000 men under his immediate command. A day later will come 4,000 men on transports and the following day 3,500 more.

Whether the landing will be deferred until the arrival of this entire force or whether General Miles will take the initiative and hoist the flag himself on Porto Rican soil is left to the discretion of that officer. It is the department's determination that he shall not lack for troops or equipment, and this first expedition may be followed by several others as fast as the troops can be got ready until word comes from the general that he needs no more. General Schwan's brigade, comprising the Fifth, the Eleventh and the Nineteenth United States infantry, a splendid body of trained soldiers, sailed from Tampa yesterday to join General Miles, and if the Porto Rican expedition is not an immediate success it will not be for lack of disposition in the war department to supply every requisite.

Secretary Long said last night that the preparations for the dispatch of Watson's squadron to European waters were going on uninterruptedly, but that the departure necessarily would await the movement of the warships to Porto Rico, the Massachusetts and other ships being required for convoying the troops to Porto Rico. This disposed of a report circulated during the day that the expedition had been abandoned. It was felt that the report was the more mischievous at this time as it indicated a purpose to yield to the implied threats from European sources that a European coalition would result if the American warships attacked the coast of Spain. Neither the state nor the navy department looks for any embarrassment from European quarters outside of Spain as a result of the naval movement against the Peninsula. During the day orders were sent to Norfolk to hurry forward work on the colliers which are to accompany the Watson expedition.

Had the army troopships been able to go to Porto Rico without a naval convoy, the Watson squadron could have got away within the next few days, as the war board had wished to close all preliminaries by next Saturday. But as the battleship Massachusetts, cruisers Columbia, Cincinnati, Dixie and Yale, together with several lesser craft, were considered necessary as a convoy for the Miles expedition, this changed plans slightly.

The Dixie is almost certain to be in the Watson squadron, and the Massachusetts is likely to be. Secretary Long expressly says, however, that the delay of the Watson squadron is incident to convoying the troops to Porto Rico and does not mean that the start will be postponed until the Porto Rico operations are concluded.

The report from Barcelona that the people were so fearful of the approach of the Watson squadron that they were urging France to establish a protectorate over all the Catalonia district including Barcelona, was dismissed by officials and by members of the diplomatic corps best informed on the affairs of France as fantastic speculation quite unwarranted by any actual movement now on foot. It is said to be thoroughly well established that France is not lending a helping hand to Spain in any of her afflictions.

GARCIA RESIGNS.

Angry Because He Wasn't Allowed to Run Santiago—His Letter to Shafter.

SANTIAGO, July 22.—The ill feeling produced among the Cubans by General Shafter's latest orders in Santiago has culminated in a serious rupture between General Shafter and General Garcia. As a consequence General Garcia has withdrawn with his army from the outskirts of Santiago to the interior, taking the road to Jiguani, which is 50 miles northeast of Santiago. He first held a council of his officers and tendered to General Gomez, the Cuban commander in chief, his resignation as commander of the Cuban army of the east. A special courier was sent to General Gomez's headquarters carrying the resignation.

General Garcia also sent the following letter to General Shafter:

"Sir: On May 12 the government of the republic of Cuba ordered me as commander of the Cuban army in the east to co-operate with the American army, following the plans and obeying the orders of its commander. I have done my best, sir, to fulfill the wishes of my government and I have been until now one of your most faithful subordinates, honoring myself in carrying out your orders and instructions as far as my powers have allowed me to do it.

"The city of Santiago surrendered to the American army, and news of that important event was given to me by persons entirely foreign to your staff. I have not been honored with a single word from yourself informing me about the negotiations for peace or the terms of the capitulation by the Spaniards. The important ceremony of the surrender of the Spanish army and the taking possession of the city by yourself took place later on, and I only knew of both events by public reports.

"I was neither honored, sir, with a kind word from you inviting myself or any officer of my staff to represent the Cuban army on that memorable occasion.

"Finally I know that you have left in power at Santiago the same Spanish authorities that for three years I have fought as enemies of the independence of Cuba. I beg to say that these authorities have never been elected at Santiago by the residents of the city, but were appointed by royal decrees of the queen of Spain.

"I would agree, sir, that the army under your command should have taken possession of the city, the garrison and the forts. I would give my warm co-operation to any measure you may have deemed best under American military law to hold the city for your army and to preserve public order until the time comes to fulfill the solemn pledge of the people of the United States to establish in Cuba a free and independent government. But when the question arises of appointing authorities in Santiago de Cuba, under the peculiar circumstances of our 30 years' strife against the Spanish rule, I cannot see but with the deepest regret that such authorities are not elected by the Cuban people, but are the same ones selected by the queen of Spain, and hence are ministers to defend against the Cubans the Spanish sovereignty.

"A rumor, too absurd to be believed, general, ascribes the reason of your measures and of the orders forbidding my army to enter Santiago to fear of massacres and revenge against the Spaniards. Allow me, sir, to protest against even the shadow of such an idea. We are not savages, ignoring the rules of civilized warfare. We are a poor, ragged army, as ragged and as poor as was the army of your forefathers in their noble war for independence, but, as did the heroes of Saratoga and Yorktown, we respect too deeply our cause to disgrace it with barbarism and cowardice.

"In view of all these reasons I sincerely regret to be unable to fulfill any longer the orders of my government, and therefore I have tendered to the commander in chief of the Cuban army, Major General Maximo Gomez, my resignation as commander of this section of our army.

"Awaiting his resolution, I withdraw my forces to the interior.

"Very respectfully yours,
"CALIXTO GARCIA."

General Shafter will return a formal answer to the Cuban leader's letter.

SAMPSON PROTESTS.

Says He Was Not the Cause of General Miles' Delay.

WASHINGTON, July 22.—Concerning the naval convoys of General Miles' expedition from Cuba to Porto Rico, the navy department tonight made public the following statement:

"Admiral Sampson telegraphs this afternoon to the secretary of the navy that there has been no delay in furnishing ample convoy to General Miles. A day or two ago the Cincinnati and New Orleans were both placed at his disposal. 'The Columbia and Yale, carrying troops, are both powerfully armed,' says the admiral's telegram, 'and this is an ample convoy for his expedition and to effect his landing.' The Annapolis, Wasp and Leyden had been ordered from Nipe, the Gloucester also added, and the three monitors ordered from Key West. Under these circumstances there certainly has been no lack of naval assistance. If General Miles preferred to wait, the delay was his own. However, in further answer to his request, the Massachusetts and Dixie were also added this morning, and he has probably started."

WOOD SUCCEEDS M'KIBBIN.

Former Colonel of Rough Riders Military Governor of Santiago.

SANTIAGO, July 21, via Playa del Este, July 22.—General Wood has succeeded General McKibbin as military governor of Santiago. General McKibbin rejoins his military command.

While General Wood is undoubtedly popular, considerable jealousy exists in the rank and file, and friction may result.

The condition of the army is excellent. There have been no additional cases of illness, and with the removal of the main body of soldiers farther into the mountains all danger will have passed.

There is an excellent feeling between the Spanish and American soldiers. They exchange salutations, and when the Americans are off duty they may be found reciting tales of the field to their late enemies or listening to stories of hardships from the men they recently tried to kill.

Business is brightening, and many houses have resumed transactions. The principal clubs have opened their doors, and the city has taken on an active appearance.

No Yellow Fever on the Seneca.

WASHINGTON, July 22.—Health Officer Doty at New York reports that the suspicious cases of sickness on the Seneca, which arrived at quarantine with a large number of men from Shafter's army, are not yellow fever. The following telegram was received by Surgeon General Sternberg of the army from Commissioner Doty yesterday:

"Quarantine on Seneca passengers may be raised in morning, July 22. Please wire where and to whom I will deliver those detained."

The surgeon general in reply directed that the men be taken to Fort Hamilton, N. Y., where Surgeon Rafferty is ready to receive them.

Cornell Professor Enlists.

ITHACA, N. Y., July 22.—Professor Duncan Campbell Lee, head of the department of oratory of Cornell university, has enlisted in the Two Hundred and Ninety-third regiment, New York volunteers. He has requested a leave of absence of President Schurman and has been selected by Colonel Schuyler as sergeant of one of the companies of the regiment. Lieutenant W. H. Remmer of the same regiment has during the past few days enlisted 25 recruits in this city, who have left for Camp Black.

True happiness does not begin for a womanly woman until she becomes a mother. The fear of death stands between thousands of women and this supreme joy. If a woman will but take the right course, she may trample this fear out of her heart, and all cause for it out of her body.

There is practically no danger, and but little pain, in maternity, for a woman who is thoroughly healthy and strong in a womanly way. Dr. Pierce's Favorite Prescription makes the delicate organs that bear the burdens of maternity strong, healthy, virile and elastic. It banishes the distress of the period of impending maternity, and insures the newcomer's health and an ample supply of nourishment. Pierce will receive the best advice of an eminent and skillful specialist, for thirty years chief consulting physician to the great Invalids' Hotel and Surgical Institute, at Buffalo, N. Y.

"A neighbor of mine who was expecting the arrival of a baby before very long, was in very poor health," writes Eliza Remsnider, Postmistress, at Majella, Bourbon Co., Kansas. "I induced her to try Dr. Pierce's Favorite Prescription. She used four bottles, and has just been delivered of as fine a daughter as I ever saw. She was only a short time in labor and is now doing well."

Pierce's Pellets. For sick headache, biliousness and constipation, Dr. Pierce's Pleasant Pellets are the most rational cure known. They are mild but thorough and effective. They regulate and invigorate stomach, liver and bowels. Never gripe. No other pill is like them.

ROAD IMPROVEMENT.

REPAIRING OF ROADS.

How This Important Work Is Carried On in Scotland and Other Foreign Countries.

In a recent address before the Ilion (N. Y.) board of trade, Hon. Robert MacKinnon gave an account of what he had observed abroad, and particularly in Scotland, in connection with the care and repair of roads. He said: "I rode a great many miles over and around the hills through this exceedingly interesting country. Scotland does not begin to be as wealthy a country as the state of New York, but everywhere through this romantic, hilly country the roads were a joy to everyone who had the pleasant experience of traveling over them and knows how much they add to the ideality and beauty of the country.

"How do they get these results? you inquire. In the first place, no farmer is allowed to work on the road. He spends his time to better advantage, taking care of his farm. In the next place, no dirt is put on the road, but dirt is taken off the road. In the next place, not a foot of road is built or repaired under irresponsible management, every mile of the road being under the control of an inspector, or engineer as we would call him in this country.

"The keeping of roads is let by con-

(Lancaster Pike, Between Philadelphia and Lancaster, Pa.)

tract at a public letting. The inspector advertises for bids on so many miles of road. The roads are called by names, as the Little Falls road, the Herkimer road or the Ilion road, and every farmer of course knows, which road he is bidding on. Every mile or so along these roads there is a little square place gotten in the fields adjoining and open to the road about 15 by 20 feet, and when the crops are all taken in, and the ground will allow it, the contractor goes into the fields with a single horse and cart.

"I do not remember in all Scotland or England of seeing a farm conveyance drawn by more than one horse. One horse there draws more than two horses here, because of the condition of the roads. The contractor picks up all the loose stones and loose stones in the road and carries them to his square inclosure. When the spring comes they make these stones and break them into macadam stone and make what they call road metal. In the meantime, in the spring of the year, they see that the gutters at the side of the road are kept open, that the water is properly drawn off, that the weeds are kept cut down and mud, if any collects on the road, is scraped off. When the rainy, or wet season comes in the fall of the year, then the road metal is drawn in a one-horse wagon and put carefully on the road in places where it is needed and it is gradually worn into position by the travel on the road, so that when the following spring comes it is worn into position and is as smooth as a floor.

"They are, however, improving on this system, and they carefully save the dirt which wears away from the stone upon the road and put it in piles, and then in the fall they put the broken stone on and cover it with this loose dirt and run a roller over it and put it in place, which very materially expedites the repairing of the roads. All the stone that I saw used upon the roads seemed to be a lime stone, something of the character used in the village of Mohawk, and I am convinced that it is much easier to keep a smooth and perfect surface out of limestone than from the stone around Little Falls. This stone, however, I think wears somewhat longer than the limestone does. I think sometimes that a little mixture of our hard gneiss rock and the limestone would make a much better road than by simply using our rock alone.

"We have in this example of the care of foreign roads the very opposite principle from that adopted and in vogue in the state of New York. Our system results in loss to the farmer in more than a financial way. It is a loss to him socially, spiritually and intellectually. It largely destroys every comfort of living in the country, and is a detriment to him in every way. If I did not believe that the people in the country could be bettered by good roads I would never have had anything to say on the subject."

Need Wider Tires Here.

The town of Rockport, Me., has voted to exempt from taxation teams using wide tires, and it has been suggested that they could afford to pay a portion of the expense of new wheels. At present, usually, 60 inches are deemed liable if three to five tons of lime rock, and no raising the roads; they use with their narrow tires.

Give the Children a Drink

called Grain-O. It is a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee but is free from all its injurious properties. Grain-O aids digestion and strengthens the nerves. It is not a stimulant but a health builder and children, as well as adults, can drink it with great benefit. Costs about one-fourth as much as coffee. 15 and 25c.

HYMENEAL.

Jordan—Park.

The home of Rev. C. H. Park, at Otisville, was the scene of a pretty wedding, Thursday afternoon, when his daughter, Mary W., became the wife of Rev. S. Martin Jordan, of Stewartstown, Pa.

The ceremony was performed by the bride's father, assisted by her brother-in-law, Rev. Geo. B. Crawford, and Rev. R. J. Diven, of Otisville, and Rev. Luther Littell, of Mt. Hope.

Miss M. E. Wolverton, of Easton, Pa., acted as bridesmaid and Mitchell Jordan, a brother of the groom, was the groomsman.

The wedding is of unusual interest to many friends from the fact that Mr. Jordan and his bride have been appointed as missionaries to Persia by the Presbyterian Board of Foreign Missions.

The house was decorated with American and Persian flags in honor of the event. The young people were the recipients of many presents both beautiful and appropriate for their future home in Teheran, Persia. They left Otisville on the 9:38 train last night.

Mr. and Mrs. Jordan will spend some time in Pennsylvania where Mr. Jordan is visiting the churches of his Presbytery. They expect to sail for their future home early in September.

A Small Army of Hoboes Arrested by Erie Detectives.

The Erie is making a determined effort to break up the practice of tramps riding on its freight trains. It has concentrated a large force of detectives and special officers along its line in New Jersey. They travel in parties of four to seven and are authorized to stop and search freight trains at any point. Within ten days they have arrested 186 hoboes.

Had His Thumb Pulled Off.

W. H. Bishop, a farm hand employed by A. M. Butler, of near Deposit, while working a hay fork, a few days ago, had his thumb caught in the rope and torn from his hand.

Clerks' Meeting.

The adjourned meeting of the clerks in the city stores will be held at the Board of Trade Rooms, Friday evening, at 7:30. Business of importance. All clerks are requested to attend.

Bad Symptoms Gone.

"My stomach was in a bad condition, my head ached, and I had a tired feeling I did not feel like going to work. I bought a bottle of Hood's Sarsaparilla and began taking it and soon I felt much better. My head stopped aching and the tired feeling left me." CHARLES BOVEE, Glens Falls, N. Y.

Special Sale of Toilet Articles.

YOUR MONEY is apt to go farthest where profits are smallest. THAT'S here. The swing of the crowd proves it. Shoppers go where their interests are most carefully considered. You see the practical side of that statement here every day. There's no need to make a noise about the store's growing business. You can see that for yourself. What we are anxious to have you remember is that our aim all along has been to bring you BEST VALUES in reliable merchandise and get them here at just the right time and right price. Just now we are making some very low prices on seasonable merchandise bought at much less than the regular prices.

Wash Goods.

A great many of our customers have told us that we have the nicest and best selected stock of Wash Goods in the city. We know that the prices are the lowest of any, as some are marked almost half early season's prices.

34 inch Jackonette Lawns, fine sheer cloth, in very pretty styles, never sold for less than 10c, as long as they last 6c yard.

34 inch Lace Striped Organdies and Corded Dimities, all dainty patterns in both light and dark shades, well worth 12½c, as long as they last 8¼c yard.

40 inch fine Lawns in black and navy blue grounds with white figures, the regular price was 15c, now 10c yard.

Real imported plain navy blue and black Organdies, with white figures and dots. Sold early at 25c yard, as long as they last 15c.

Fine imported plain Organdies, with dainty colored figures, sold in every store for 19c, as long as this lot lasts 10c yard.

Toilet Goods.

No large city store carries a better stock of popular priced goods than we do. Nothing sold but what we can warrant. Try us and we will make a steady customer of you.

Our own large bottle of Florida Water 25c.

Pope's Violet Ammonia, finest goods made, 15c a bottle or 2 for 25c.

Oakley's finest Triple Waters, two or four ounce bottles. 25c, 49c.

GREAT ALTERATION SALE!

We intend to have our store enlarged to double the size and will have to move our goods. Our largely increased business for years has forced us to have more room. When our new addition is completed we will have a storeroom twice as large as any clothing store in our city, the best lighted and finest equipped salesroom.

To Make Room We Will Inaugurate a Clearing Sale.
